

As of February 2004, DCSA adopted a new policy at the board meeting that will affect all of our Real teams.

Policy #1 - All Real National teams are required to carry a balance of \$100.00 per player in their team account. All Real Olympico, Red, White and Gold teams are required to carry a balance of \$50.00. The minimum balance should be viewed as a reserve for unexpected or last minute expenditures or emergencies that the treasurer must pay. This money is not used for expenses that have been planned and already explained to parents with deadlines for which they are due.

This balance must be up to date for all players on March 1st and August 1st of every year.

For those families who do not adhere to this policy, the manager is required to make two phone calls to the family making them aware of the balance. If after the two phone calls the minimum amount is not met, the manager must turn the player pass in to the competitive registrar. The competitive registrar will handle collection from that point on and the pass will not be released until the account is current.

We understand that some families may have circumstances that will prohibit them to meet all deadlines. In this case please have them contact the competitive registrar to work out a payment plan.
